

Megan Silcott is an experienced Environmental, Health, and Safety (EHS) professional with nearly 18 years of expertise in the chemical manufacturing sector. Megan joined Safex in January 2025, bringing a wealth of knowledge and practical insight from her previous role, where she managed EHS programs across seven chemical manufacturing locations in North America.

Throughout her career, Megan has developed a deep proficiency in hazard identification and evaluation, safety protocol development, and ensuring compliance with OSHA and EPA regulations. Her skill set includes providing technical and regulatory support, conducting training to promote a safe and compliant workplace, and overseeing comprehensive safety programs. Megan has experience managing Risk Management Plans, conducting safety inspections, leading accident investigations, and performing quantitative fit testing.

Megan holds a Bachelor of Science degree in Environmental, Safety, and Occupational Health from The University of Findlay. She is an active member of the American Society of Safety Professionals (ASSP), demonstrating her commitment to continuous professional growth and staying current with industry standards.
