

Taylor Andersen, MS, IAT, ATC, CEAS, is an athletic trainer by trade with her work focusing on the industrial athlete. This has led her in to learning more about industrial hygiene and focusing on overall employee wellness. Taylor has experience in manufacturing, industrial and construction employee wellness. She has extensive knowledge in Musculoskeletal Disorder (MSD) reduction, MSD related injury, MSD prevention, wellness education and employee wellness. Taylor will utilize her knowledge to help clients provide the best care possible for their employees. She believes employees should leave work better than how they walked in that day.

Prior to joining the Safex team in July 2023, Taylor worked for industrial and construction health & wellness organizations. Taylor has been in the industrial or emerging setting for over eight years.

Taylor graduated from Urbana University with her Bachelor of Science in Athletic training and California University of Pennsylvania with her Master of Science degree. Taylor has a board of certification (BOC) in athletic training, state license and certified ergonomic assessment specialist (CEAS).

Taylor can be found in the ice rink on her off time playing, refereeing, athletic training or coaching ice hockey. Taylor also enjoys kayaking, home improvement projects and spending time with her dog Arrow.
