

Ryan Moon is a Board-Certified Industrial Hygienist and Board-Certified Safety Professional with more than 16 years of comprehensive environmental, safety, and industrial hygiene experience.

As a senior consultant, Ryan specializes in industrial hygiene sampling and program management, industrial safety, auditing, training employees, HSE professionals and management, and coaching/mentoring of HSE staff. At Safex, he leads project work with large clients, conducts training, performs audits and gap assessments, and business development.

Throughout his career, Ryan has conducted or supervised numerous industrial hygiene and indoor air quality surveys, written and audited compliance programs, develop and presented numerous training course, webinars, and workshops for employees, management, and HSE professionals. He has served as a HSE support to clients for industrial safety including hazardous energy control (lockout/tagout), confined space entry evaluation and procedure development, machine guarding assessments and risk assessments. He has supported numerous environmental remediation efforts for private and governmental clients.

Ryan is an instructor for the OSHA 40-Hour Hazardous Waste Operations, OSHA 24-Hour Emergency Response and 8-Hour HAZWOPER/Emergency Response Refresher training, and he also teaches workshops on industrial hygiene monitoring, bloodborne pathogens, ergonomics, respirator programs, PPE selection, noise/hearing conservation and climate-related injuries.

Prior to joining Safex, Ryan worked as a Senior Industrial Hygiene/EHS professional for Battelle Memorial Institute, where he was responsible for health, safety, and emergency response for various business units providing risk assessments, health and safety training, pilot plant start-ups, and process hazard assessments for operations.

Ryan has completed the 40-Hour HAZWOPER, OSHA 30-Hour for Construction, OSHA 10-Hour for General Industry, 40-Hour Construction Safety Hazard Awareness (USACE EM 385-1-1), Laser Safety Officer Course, Process Hazard Awareness Leadership,

Electrical Safety and NFPA 70E Awareness, Permit Required Confined Space, 2.5-day Respirator Fit Test Course, and Hearing Protection and Conservation training.

He is the Past President of the Central Ohio American Industrial Hygiene Association, served as Chair of the AIHA Student and Early Career Professionals Committee, and was selected as a member of the AIHA Future Leaders Institute (2014). Ryan has also volunteered to support the Board for Global EHS Credentialing during their Certified Industrial Hygienist exam recertification process. Ryan is a member of the Ohio University Environmental Health & Occupational Safety and Health Program Advisory Board, and an adjunct instructor at Otterbein University where he taught "Toxicology and Industrial Hygiene".

Ryan has a B.S. in Industrial Hygiene from Ohio University, and a M.S. in Industrial Hygiene Professional Track from Montana Tech.
