

Evan Matthews is an Environmental, Health, and Safety consultant who works on environmental and industrial hygiene projects.

He graduated from Northern Michigan University with a degree in Environmental Studies and Sustainability in May 2020. He completed an environmental, health and safety internship at Visual Workplace in Michigan. After relocating to Columbus, he became a Safex intern in 2021.

Evan has experience writing Spill Prevention, Control and Countermeasure (SPCC) plans and Stormwater Pollution Prevention Plans (SWIPP) and conducting Satellite Accumulation Areas (SAA) and Main Accumulation Area (MAA) inspections. Evan is proficient at qualitative and quantitative respirator fit testing and conducting chemical inventories. He became a full-time health, safety and environmental consultant June 2022.

He received his OSHA 30 for construction and is pursuing his Associate Safety Professional (ASP) certification. In the future, he'd like to obtain a Certified Hazardous Materials Manager (CHMM) certification.
