

Kim Shapiro, ASP, CHMM

Health, Safety and Environmental Consultant

Kim Shapiro is a Health, Safety and Environmental (HSE) Consultant who has been part of the Safex Team since 2016. Her experience includes managing HSE compliance for manufacturing and general industry facilities, developing and delivering training, and identifying strategies and solutions to meet environmental health and safety goals and support a strong safety culture.

Kim is experienced with both EPA and OSHA compliance. Conducting audits, designing custom compliance programs, and developing and delivering training are amongst her primary project types. She frequently performs industrial hygiene evaluations, such as employee inhalation exposure assessments for various contaminants and indoor air quality assessments.

Kim's environmental experience also includes performing compliance audits, creating compliance strategies, developing Hazardous Waste Contingency Plans, Spill Prevention Control and Countermeasure (SPCC) and Stormwater Pollution Prevention Plans (SWPPP) and assisting with compliance reporting and recordkeeping. She also has experience with wastewater and stormwater permitting and compliance.

At Safex, Kim develops and performs training on a variety of OSHA and EPA compliance topics, including Resource Conservation and Recovery Act (RCRA)/Hazardous Waste Management, SWPPP, SPCC and Hazardous Waste Operations and Emergency Response Refreshers (HAZWOPER). Kim is familiar with EPCRA requirements and has assisted in the completion of multiple large industrial and manufacturing facilities complete EPCRA Tier II and TRI Reports, Hazardous Waste profiles, Chemical Inventories and EPA Biennial Reports.

Kim has a bachelor's degree in Environmental Science and minors in Earth Science and Sustainability Studies from Otterbein University. Kim is an Associate Safety Professional® (ASP) and has completed 40-hour HAZWOPER and 10-hour OSHA for General Industry. She is also a Certified Hazardous Materials Manager (CHMM). In 2019, she was recognized by her peers as a recipient of the 'Rising Star Award' from her alma mater. She serves on the board of Central Ohio Certified Hazardous Materials Managers (COCHMM) as secretary. Kim volunteers her time with Colony Cats, a Columbus, Ohio, non-profit that helps unite animals with their forever families.
