

Luke Midock is a health, safety and environmental consultant who works on projects that are centered mainly around industrial hygiene and safety.

He is a May 2022 graduate from Indiana University of Pennsylvania with a degree in Safety Health and Environmental Applied Sciences. His final semester of college was on the job learning through a Safex internship. Luke started his career at Safex in April 2022 working on projects that involved elements based in both industrial hygiene and safety.

Luke is a registered member of the American Society of Safety Professionals (ASSP) and is interested in pursuing his Certified Industrial Hygienist (CIH) certification, and Certified Safety Professional (CSP) certification while working at Safex.
