

Marcus Simon is an Industrial Hygiene Consultant who performs industrial hygiene assessments such as air and noise monitoring, as well as doing fit testing and chemical inventory. On occasion, he will assist with any safety related projects. His interest in safety and industrial hygiene started when he worked as a resident assistant his time as an undergraduate in college.

Prior to joining Safex in October 2022, Marcus was working the EHS department at Battelle as an intern to finish his graduate studies. In that role, Marcus conducted a chemical inventory of all the lab spaces, did safety evaluations and walkthroughs of lab and manufacturing workspaces, revised campus-wide evacuation maps and updated EHS training presentations.

Marcus earned a Master's in Public Health (MPH) concentrated in Environmental Health Studies from East Tennessee State University in 2022 and has a Bachelor of Science in Environmental Health and minor in Occupational Safety from Old Dominion University in 2020.

Marcus holds a certification for CPR/First Aid and OSHA 30-Hour General Industry. A goal of his is to gain enough professional experience to become an Associate Safety Professional (ASP).
