

Prior to joining the Safex Team in May 2023, Jose was an Operational Excellence Leader with Horton Emergency Vehicles in Grove City and prior to 2022 he was working as an Environmental Health and Safety Specialist at Leader Emergency Vehicles in Los Angeles, CA.

At Leader Emergency Vehicles he was responsible for maintaining the environmental, health, and safety program consisting of new hire orientation, general industry training, Heartsaver First Aid CPR AED training, Job Hazard Analysis JHA implementation, incident investigation, workers compensation, Storm Water Management Program, RCRA Hazardous Waste Management, and much more. He is fluent in Spanish and translated the environmental, health, and safety program while at Leader Emergency Vehicles.

Jose holds an Associate's Degree in Automotive and Related Technologies from Los Angeles Technical Trade College, and a Bachelor of Science in Industrial Technology, and Masters of Science in Industrial Management from the California State University of Los Angeles.

As a short-term career goal, Jose plans to further develop his professional skills and get certified as a Certified Safety Professional (CSP).
