

Immediate Opening – Safety Consultant

Help us continue to be Ohio's premier health, safety and environmental consulting firm.

We're looking for Safety Consultant that is equal parts strategic thinker and proactive solution-finder. This position isn't about checking boxes, it's about collaborating with clients to address their health and safety needs.

What You'll Own:

- Preparing written reports and programs
- Setting your own schedule each week based on client need and personal choice
- Supporting multiple industrial and construction clients
- Identifying hazards and proposing corrective actions
- Assisting clients with implementation of S&H programs

What Will Make You Successful:

- You excel at providing onsite safety staff support for construction and manufacturing clients
- You're a clear communicator who can provide straightforward regulatory interpretations
- You enjoy developing and presenting safety training on confined space, scaffolds, emergency response, fall protection and more!
- You're always asking: How can I build relationships with new and existing clients?

What We're Looking For:

- A degree in safety or related science field
- 5 + years of safety experience
- Critical thinking and problem-solving ability
- Strong written communication skills with attention to detail
- Comfortable with public speaking and intrapersonal communication skills
- Ability to balance multiple projects simultaneously.

- Professional certification or willingness to complete in a year
- Bilingual is ideal

Our comfortable and sustainable office is in Westerville, OH and will include some travel. Perks include health and life insurance coverage, 401 (K) match, profit sharing, a free onsite fitness center, opportunities for community service and professional development.

Safex is an equal opportunity employer, committed to sustainable practices and giving back to our community. www.safex.us. Please send resume to
